# MEMBER REVIEWS

Before joining Boldheart Business, I had a high-stress corporate job and not enough quality time with my family. Within six months, I left my corporate job behind to start my own business. **Fabienne shifted my mindset and what once seemed impossible suddenly seemed very doable.** The result was that the transition out of corporate and into my own business went more smoothly than I could have imagined.

Each year, Boldheart Business has helped me take my business to new heights. Last year my business grew 240 percent, and this year is on track to be even higher. **I now have full-time employees, take time off for family and vacations and have a real sense of freedom. Honestly, joining was one of the best investments that I've ever made in myself, my business and my future.**

*- Charles Ogwyn (started in Growth, advanced to Leverage and then to Masters)*

I signed up for the Growth Track of Boldheart Business because I needed more clients. I remember signing up and not even knowing how I would pay for it. **Two months later, I had made just over 80,000 dollars by embracing a no-excuses approach.** I went from the Growth Track to the Leverage Track in six months, because I wound up having too many clients! **Once in the Leverage Track, we took on a team, developed systems, launched a group program and began road shows. That year, we made just less than 900,000 dollars.**

**In the next 12 months, we will make nearly 2 million dollars.** I know that because Boldheart Business has taught me that making money isn't random. As long as you follow the formula, the money will come in. That's given me more security than any amount of money in the bank.

*- Lucy Johnson (started in Growth, advanced to Leverage and then to Masters)*

**“Words can't express how dramatically different my life is today compared to where I was before joining Boldheart Business”**

When we joined 3 years ago, we had a tiny email list of 68 people, zero clients and zero dollars. **In just the first 9 months in Boldheart Business, we hit six figures.** In year 2, having advanced to Leverage, we grew to over 300 clients, reaching nearly \$300,000 in revenue! Year 3, we made \$500,000 serving 1,000 clients. **This year, we'll cross the million-dollar mark, allowing my husband to quit his well-paying job to work with me.**

How did we do it? In Growth, we discovered where to find ideal clients and how to market authentically. In Leverage, we set up systems, built a team, and created a scalable business model to serve many more people. **Our financial success and ability to impact thousands is a direct result of enrolling. I couldn't have done any of this without our Boldheart family!**
